DETAILED ACTION

Response to Amendment and Arguments

1. Amendments to claim 1 have been entered in the above-identified application. **Claims 1-20 are pending.**

The rejection of claims 1-20 under 35 U.S.C. 103(a) as being unpatentable over Oka et al. (US 5,747,152 A) in view of Nishikawa et al. (US 6,916,540 B2) has been withdrawn in light of the amendments made to independent claim 1 and the arguments presented in the response submitted on July 1, 2008.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claim 1 has been amended to recite that the hard coat layer comprises a mixing quantity of the isocyanuric acid acrylate (B) in the range of from 5 to 25 parts by weight relative to 100 parts by weight of the urethane acrylate (A), a mixing quantity of the inorganic ultrafine particles (C) in the range of from 10 to 60 parts by weight relative to all resin components in a hard coat forming material, and a difference in refractive index between the transparent plastic film substrate and the hard coat layer is 0.04 or less.

However, it is unclear from the Specification and the claims what is meant by "a mixing quantity". Is the "mixing quantity" the amount added during the process of making the hard coat layer or is it the amount in the final, cured hard coat layer? Claims 2-20 depend on claim 1 and incorporate all the limitations of claim 1. Appropriate correction or clarification is required.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
